

The NAD intends to continue its efforts to facilitate a positive resolution to the current state of affairs.

The NAD therefore calls upon the University Board of Trustees to take serious and decisive action – today – for the good of Gallaudet and its stakeholders as well as the national and global deaf community. The entire campus and external community needs to be part of the University's healing process, and we at the NAD stand ready to be of assistance.

Sincerely,

Andrew J. Lange
President
National Association of the Deaf

Nancy J. Bloch
Chief Executive Officer
National Association of the Deaf
